Covance Study Technicians

IN-LIFE AND PATHOLOGY	METABOLISM IN-LIFE AND DISCOVERY SERVICES	DOSE FORMULATION
<p>Collect, document, and manage pertinent data including animal observations, test material administration and clinical sample collection.</p> <p>Work with animals.</p>	<p>Track test material as it moves through the body to gain an understanding of absorption, distribution, metabolism and excretion characteristics all while learning how it is essential to the pharmaceutical discovery and development process.</p> <p>Work with animals.</p>	<p>Prepare vehicles, diets, solutions and capsules with test material according to study protocols and SOPs.</p> <p>Work with pharmaceutical products in a laboratory environment.</p>

“

“It is very rewarding to know my work makes a positive impact. This job can be both exciting and challenging at times, but the work we do to support early drug development is invaluable.”

- Daniel, Study Technician

“

“I enjoy working closely with animals of varying species, which isn't very common right out of college. I have deep respect for the animals and their contribution to science.”

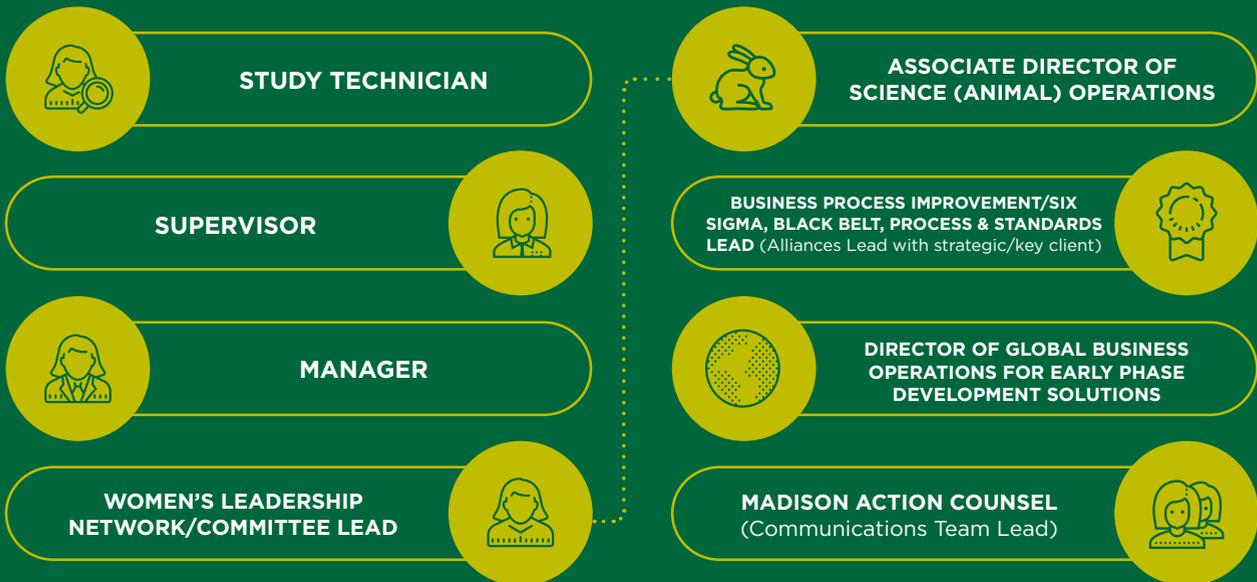

- Stacy, Study Technician

WHAT IT MEANS TO WORK AT COVANCE

Challenging, Diverse Work

We work with the top 20 pharmaceutical organizations in the U.S., but more than 50 percent of our work is done in collaboration with small biotech and emerging pharmaceutical companies. That means you get hands-on experience with organizations of all sizes.

We recruit top talent from universities around the world. Technical excellence is vital. But so are thought leadership, integrity, critical thinking, global perspective and creativity. If you're looking to grow in a fast-paced, client-focused environment, we can help you achieve great things.

A Culture of Learning

At Covance, we are skilled at creating, acquiring, sharing and transferring knowledge, which translates into you gaining a great deal of expertise in a short amount of time.

Exposure to various aspects of our business will broaden your experience and insightful, supportive colleagues will share their knowledge. Add in the chance to work with international teams, and it's everything you need to discover fresh interests and hidden talents while growing your career.
